

Md Golam Sarowar

MERN Stack Developer

Aspiring MERN Stack Developer with a solid foundation in MongoDB, Express.js, React, and Node.js. Passionate about developing full-stack web applications and eager to apply my technical skills in a challenging environment. Seeking an entry-level position where I can contribute to the development of innovative solutions while continuously learning and growing with a forward-thinking team.

PROJECTS

Protfolio Website

[This is My Personal Protfolio website.](#)

[Link](#)

[GitHub Link](#)

Description: Developed a responsive, dynamic portfolio website using React.js and Tailwind CSS to showcase my skills, projects, and experience. The portfolio features an interactive user interface with optimized performance through Vite for fast development and builds. The project emphasizes modern web design, accessibility, and mobile-first principles.

Technology: React.js, Vite, Tailwind CSS, JS, Git & Github.

Todo Application

[This is a todo application project .](#)

[Link](#)

[GitHub Link](#)

Description: Developed a dynamic and responsive Todo application utilizing Next.js for server-side rendering and enhanced performance. Managed global state seamlessly with Redux Toolkit, enabling efficient handling of tasks.

Key features:

- State management
- Responsive Design
- User-friendly UI

Technology: Next.js, Redux Toolkit, JavaScript, Tailwind CSS.

E-commerce (Shofy)

[This is an e-commerce website.](#)

[Link](#)

[GitHub Link](#)

Description: This e-commerce platform built with Next.js offers a dynamic shopping experience, allowing users to browse products and add items to their cart without needing to sign in. However, access to the cart and favorites page, as well as the checkout process, is restricted to authenticated users. The platform integrates secure user authentication with NextAuth and includes payment processing via Stripe. The platform leverages Next.js' server-side rendering (SSR) for enhanced performance and SEO. This mobile-first platform ensures a seamless experience across devices and browsers.

Key features

- User Authentication
- Payment Gateway Integration
- Server-Side Rendering
- Dynamic Shopping Cart
- Product Search and Filtering
- Order Management
- Responsive and Mobile-First Design
- Admin Dashboard

Technology: Next.js, NextAuth, Stripe, Tailwind CSS, TypeScript, React.js, Firebase, Git & Github.
