

Md Golam Sarowar

MERN Stack Developer

Aspiring MERN Stack Developer with hands-on experience as a Frontend Developer Intern at Fortis Group, contributing to enterprise-level web applications. Skilled in React.js, Redux, Tailwind CSS, and TypeScript, with a solid foundation in backend technologies like Node.js, Express.js, and MongoDB. Focused on applying my skills in a professional environment while continuously learning and growing as a full-stack developer.

PROJECTS

Portfolio Website

[This is My Personal Portfolio website.](#)

[Link](#)

[GitHub Link](#)

Description: Built a responsive portfolio website using React.js, Tailwind CSS, and Vite to showcase my skills and projects, featuring a modern, mobile-first design with optimized performance and accessibility.

Technology: React.js, Vite, Tailwind CSS, JavaScript.

Enterprise Resource Management System

[In-house Software, Fortis Group](#)

Description: Contributed to building an enterprise web application for Fortis Group, covering employee lifecycle, payroll, requisitions, taxation, bonuses, performance tracking, and multi-company management—streamlining HR and administrative processes into a single unified platform.

Key features:

- **Employee Management:** Employee onboarding, profile management, attendance, leave requests, and role-based access.
- **Payroll System:** Automated salary calculation, tax deductions, bonus handling, and payslip generation.
- **Requisition Management:** Request creation, approval workflow, and status tracking for organizational needs.
- **Company-wide Integration:** Centralized platform that supports multiple companies under the group.
- **User-friendly Interface:** Responsive, accessible, and optimized UI for seamless usage across devices.
- **Security & Access Control:** Role-based permissions to ensure data confidentiality.

Technology: React.js, Redux toolkit, Tailwind CSS, TypeScript, Ms SQL.

E-commerce (Shofy)

[This is an e-commerce website.](#)

[Link](#)

[GitHub Link](#)

Description: Built a mobile-first e-commerce platform with Next.js, featuring secure authentication (NextAuth), Stripe payment integration, dynamic cart and favorites, and SSR for improved performance and SEO..

Key features

- **User Authentication:** Secure login, registration, and role-based access control.
- **Payment Gateway Integration:** Seamless and secure online payment processing.
- **Server-Side Rendering (SSR):** Improved SEO and faster initial page load.
- **Dynamic Shopping Cart:** Real-time cart updates with add, remove, and quantity adjustments.
- **Product Search & Filtering:** Advanced search with category, price, and keyword filters.
- **Order Management:** Order tracking, history, and automated status updates.
- **Responsive & Mobile-First Design:** Optimized user experience across all devices.
- **Admin Dashboard:** Centralized management of products, users, orders, and reports.

Technology: Next.js, React.js, NextAuth, Stripe, Tailwind CSS, TypeScript, Firebase.
